Experts at ensuring your safety while working at height.

→
Sole agents for superior Roodsafe height safety systems in Southern Africa.

→
Sole agent for SECURPULLEY® in Southern Africa

Permanent lifeline systems

Our permanent cable-based fall protection systems are uniquely versatile and specifically designed for fall arrest purposes to suit any structure or building.

Temporary lifeline systems

Temporary systems are extremely flexible and can easily be installed and removed as needed and when workers need to move around frequently.

Anchor points

Our structural anchors can be secured to vertical, horizontal and inclined surfaces such as walls, columns and lintels.

Accessories

The correct accessories play a critical role in ensuring people are protected while working at height.

Our systems are used in conjunction with full-body harnesses shock absorbing lanyards fall arrest blocks slide chuck rope grabs and carabiner hooks.

SECURPULLEY®

We are the sole agents for SECURPULLEY® in Southern Africa.

The pulley is fitted with a counterweight brake system and is designed to arrest small loads of maximum 50kg.

The securing brackets are specifically designed for use on scaffolding to replace loads being lifted or lowered with a hand line or a standard pulley.

Our commitment

To provide an appropriate and elegant solution to your height safety challenges.

We offer a full backup service on all our products.

Our systems are guaranteed, maintained and inspected annually.
